

## Announcing New HHA/OASIS Training

The Arizona Department of Health Services OASIS Automation Office and Office of Medical Licensing, in collaboration with the Arizona Association of Home Care is pleased to announce the Home Health/OASIS Brown Bag Training Series.

In an effort to meet the training needs of Home Health providers state wide, we are taking the show on the road!!!

Brown Bag trainings have been scheduled throughout the state beginning in November. Regions have been designated and will have one Brown Bag session per quarter. It is our hope that this forum will allow for a

consistent, reliable training opportunity for all providers to obtain necessary information in a less restrictive format. The designated regions, times, and locations are listed on the attached calendar. Dates and times are set, however locations are not yet determined for all sessions.

The Brown Bag trainings will last two hours during lunch time with a structured agenda for the first hour and roundtable discussions, Q&A's, and networking for the second hour. Trainers will include ADHS staff, Association members, and guest speakers, etc. as determined by request and need. Registration is free to providers and will be managed by the Arizona Association for Home Care. Contact [homecareaz@aol.com](mailto:homecareaz@aol.com) to register.

Come and join us!!
